

C Series – High Flow

- ▶ MOPD: 400 PSI (28 Bar)
- ▶ C_v Range: 0.019 to 0.420 (K_v Range: 0.016 to 0.357)
- ▶ 7 Watts

The C Series, available only in brass, is a highly durable miniature 2- or 3-way direct acting valve for applications that require a higher flow control. The C Series also utilizes a larger diameter body and larger port connections for higher C_v (K_v) valves rates. The free machining brass body allows for fast and precise machining, translating into lower product costs as compared to stainless steel. Design engineers appreciate the quality inherent in solid brass components.

Typical Applications

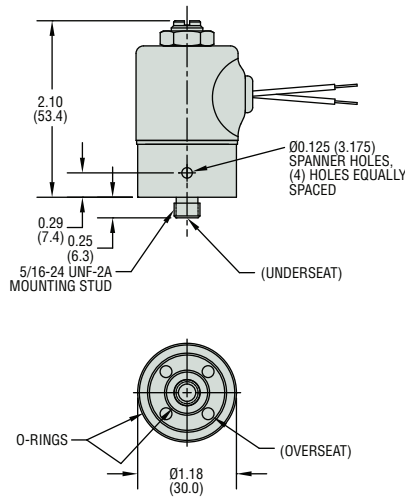

- Therapeutic Beds
- Automotive Applications
- Packaging Equipment

Dimensions

Threaded Port Body

Manifold Mount Body

Alternate 1/2" Conduit Housing Available on all body configurations

How To Order

Use the **Bold** characters from the choices listed on the following page to construct a product code.

* Blank entry indicates a "Standard" selection (Brass, in this case).

Example:

C2016-11-E-EO-LB-48VDC-VAC

2-Way N.C. solenoid valve, with tape-wrapped coil, Class-H, lead-wires, brass body, EPR plunger seal, EPR o-ring, 1/4-18 NPT female thread, operating at 48 VDC, and includes a vacuum application – 0 to 29.5" Hg (0 to 1000mBar) option.

CE

(standard on 2-way normally open and all 3-way valves)

G5 = One piece 316 Stainless Steel guide assembly

* Standard selection; will be used unless otherwise specified. Standard selections are not referenced in final part number.

[†] Can be AC rectified without shading ring. Use coil construction Code 10.

^{††} Teflon® o-ring not suitable for manifold mount.

Gems specializes in the design and manufacturing of custom solenoid valves and fluidic systems. If you don't see what you're looking for, or have a question, contact us at 800-378-1600 or info@gemssensors.com.
