

# WEATHERPROOF ASSEMBLY FOR FENWAL INDUSTRIAL HEAT DETECTORS

**hawco**

**An IP66-rated weatherproof assembly comprising a Fenwal rate-compensated heat detector (type 27121-0-xxx) mounted to a Hawke type PL612 junction box.**

The junction box is robustly constructed of glass-reinforced, flame-retardant, glass-filled polyester. This has two spare M20 tapped plugged cable entries and is fitted with Klippon BK-6 six-way terminal block.

Suitable for industrial use, the heat detector contacts close at operating temperature.

Maximum possible detector setting for this assembly is 450°F.

This assembly is suitable for mounting in any plane (e.g. ceiling-mounting, wall mounting etc).

*When ordering, select the required temperature setting from the selection chart below using ambient temperature plus 100°F as a guide.*

## **SPECIFICATION**

- Area classification : Non Hazardous
- Application : Weatherproof
- Detector fitted : 318-100 to 318-108
- Electrical rating : 2A @ 24VDC
- Contact action : Normally open (close on fire)
- Cable entry : 2 x M20
- Terminal block : Klippon BK6
- IP66 rated
- Approx weight : 1200 grams
- Width : 240mm
- Length : 135mm
- Height : 75mm

Probe projects 115mm out of the junction box
