

# I FEEL

Detects the temperature around you with the remote controller no matter where you are in the room. So the air conditioner will optimise its operation based on the information to provide better air conditioning experience.

## TECHNOLOGY

The performance of air conditioner may vary in different working conditions. If the room temperature is higher/lower than expected, you will feel uncomfortable. I FEEL is the latest innovation in Haier's design to bring you total comfort.

**Built-in Temperature Sensor**

With the high definition temperature sensor built inside, the remote controller of the air conditioner can precisely monitor the temperature around the room.

**Easy Control**

With a simple click on the I FEEL button on the remote controller, the air conditioner receives real-time temperature data and optimise working conditions to match the desired temperature set by users.

## BENEFIT

**Other:**  
Without I FEEL

**Haier:**  
With I FEEL

**Comfortable Experience**

The function optimises the working conditions of the air conditioner to deliver airflow at the best temperature that you need.
