

Scalable, Reliable, Flexible. Our automatic and flexible wireless monitoring system makes alarms, data storage and reporting easy. Either single PC or Network enabled so multiple users can access the system from different offices or locations. New sensors can be easily added due to scalable design. Popular in the laboratory, medical, food processing, and cold distribution sectors, System5 is designed to aid compliance with 21 CFR pharmaceutical legislation.

Name	Part Number	Description	GBP	Euro
Logger / Transmitters				
Scout	SCOUT	Waterproof single channel logger/transmitter with internal temperature sensor (-40°C to +70°C)	£125	€175.00
ScoutPlus	SCOUTPLUS	Two channel logger/transmitter with internal temperature sensor & connector for external sensor	£149	€208.60
ATEX approved Scout 	SCOUT-ATEX	Scout transmitter with ATEX Zone 2 approval for use in potentially explosive atmospheres	£159	€222.60
ATEX approved ScoutPlus 	SCOUTPLUS-ATEX	ScoutPlus transmitter with ATEX Zone 2 approval for use in potentially explosive atmospheres	£195	€273.00
System5 T-BAR	S5-TBAR	Rugged waterproof stainless steel logger/transmitter with probe for harsh environments (-40°C to +85°C)	£475	€665.00
ScoutPlus with standard external probe	SCOUTPLUS-S5-T	ScoutPlus configured with external temperature probe with standard 1.5m cable (-80°C to +140°C)	£219	€306.60
ScoutPlus with humidity sensor	SCOUTPLUS-HUM	ScoutPlus configured with external temperature & humidity sensor	£278	€389.20
ScoutPlus with 4-20mA adapter	SCOUTPLUS-420MA	ScoutPlus configured with internal temperature sensor & external 4-20mA adapter	£249	€348.60
ScoutPlus with PT100 probe (low range)	SCOUTPLUS-PT100L	ScoutPlus configured with external PT100 probe for higher accuracy & range (-200°C to +250°C)	£338	€473.20
New! ScoutPlus with PT100 probe (high range)	SCOUTPLUS-PT100H	ScoutPlus configured with external PT100 probe for higher accuracy & range (-60°C to +450°C)	£338	€473.20
ScoutPlus with light duty door sensor	SCOUTPLUS-D	ScoutPlus configured with internal temp sensor & external door sensor for domestic or small doors	£239	€334.60
ScoutPlus with industrial door open sensor	SCOUTPLUS-DIND	ScoutPlus configured with internal temp sensor & external industrial door sensor for large/industrial doors	£249	€348.60
Receivers (Communication cards ordered separately)				
BasePlus	BASE-PLUS	Receiver unit with display, memory, audible/visual alarms, backup battery & flexible comms options	£795	€1,113
Base	BASE	As BasePlus without display or visual alarms	£590	€826
Bridge	S5-BRIDGE	USB Receiver unit for direct download to PC	£255	€357
New! Transport Bridge	S5-BRIDGE-TRANSPORT	Receiver unit for use in transport monitoring systems. Can be used with ECHO-C to extend radio range	£255	€357
New! AnyWhere Base*	ANYWHERE-BASE	Receiver unit for 'IceSpy AnyWhere System'. Consists of GPRS connection and web based system	£300	€420
How to construct part number for configured Base unit, e.g. HBASEPLUS-EU-NK-MU				
1)'H' if hybrid 2) 'BASE' or 'BASEPLUS' 3) Add 'EU' (no additional charge) if EU 2-pin plug required 4) Add at least one communications card, e.g. 'NK-MU' for network and modem cards				
Communications Options - choose at least one				
Network Card	S5-NK	Network / Ethernet card for centralising data on IT network	£159	€222.60
USB Card	S5-USB	USB & Serial (USB / RS232) connector card including cables	£159	€222.60
BMS card	S5-BMS	Building Management System card with 4-20mA and relay outputs	£265	€371.00
Analogue Modem	S5-MU	Analogue modem card for sending data and alarms via telephone line	£235	€329.00
New! GSM Modem	S5-GSM	GSM modem card for sending data and alarms from remote sites	£350	€490.00
Mini System				
S5-MINI	Complete monitoring system package (5 x SCOUT, 1 x S5-BRIDGE, 1 x S5-COMPACT)		£865	€1,211
